

Alexander Huang

alexhxh0098@gmail.com | 949-522-0664

Education

Brown University, Providence, Rhode Island | 2022 - 2026

Computer Science Sc.B. – GPA 3.9

Experience

TikTok – Privacy and Security - Product

Backend Software Engineer Intern, June 2024 – August 2024

San Jose, CA

- Developed a data fetcher to retrieve metadata on a user's recently deleted posts. Used by the Download Your Data feature to provide this data in text files to users and law enforcement agencies.
- Built a configurable bot that parses for hanging data queries to a centralized user data platform, and displays the details to an on call channel.

TikTok – Social - User and Relation

Backend Software Engineer Intern, May 2023 – August 2023

Culver City, CA

- Developed a feature to dynamically configure server-side pipelines for user recommendation scenes (For You/Inbox page pop-up, suggested tab, big card) used in production.
- Wrote backend of a web app to query and handle user data from various data sources and built an interface to display the data. Used by on call to solve inconsistent data between data centers and view detailed user information.

Internship at WeVision, LLC

Software Engineer, May 2020 – August 2020

- Worked on Secure Hadoop cluster migration project for Hulu's AdIntelligence Data Platform
- Modified production Apache Airflow pipelines to receive and stream data to new Hadoop or Druid cluster

Independent Deep Learning Research Project

Student Researcher, August 2020 – March 2021

- Compared the performances of different Convolutional Neural Network training strategies in computed tomography (CT) image-processing tasks
- Constructed deep learning models to determine better strategies for optimal accuracy CT image diagnosis

Skills

- Go, Rust, C++, Python, JavaScript/React, Java, Git
- MongoDB, MySQL, RPC, Apache Spark, Hadoop, Kafka, Presto, Microservice Development, TensorFlow, Redis, AWS
